Please select one interview for your individual pre-assignment and consider the following:

- ① What were the issues related to culture in the interview? Please give more than one if there were more than one. Same as the last question of the pre-assignment but if you would like to rephrase please do so.
- ② Were there any cultural dimensions involved in ①? If yes, which dimension(s)?
- ③ How would multicultural adaptation of each of the characters lead to a solution of the issue? Could anything else be done other than multicultural adaptation?
